BUILD THE FUTURE_

THE CRUCIBLE

Hack Days by Atria Summer of Code is an electrifying, intense 10-hour event running from **8:00 AM to 6:00 PM IST**. Moving beyond traditional syntax-matching challenges, we focus on hands-on, logic-based building, spatial intelligence, and cloud automation.

This event seamlessly weaves together a rigorous **8-hour uninterrupted hacking sprint**, expert technical talks, and high-stakes quizzes. We are bringing together the most dedicated student developers for a day of continuous building, deploying, and problem-solving.

// OUR CORE MISSION

To bridge the gap between theoretical college curriculum and industry-standard engineering. We provide a space where students must navigate documentation, utilize cloud infrastructure, and build highly functional prototypes under a strict time constraint.

HOUR SPRINT

30+

PROTOTYPES

Our team members are focused on building the future. The event actively channels talent into three high-impact engineering domains, ensuring the prototypes developed are scalable and relevant.

1. CLOUD & AUTOMATION

POWERED BY AWS STUDENT BUILDER GROUP

This track challenges students to move beyond local host. Teams will utilize cloud infrastructure, implement serverless architectures, and build advanced deployment pipelines to ensure their applications are globally scalable.

2. MODERN WEB & OPEN SOURCE

DRIVEN BY OSCODE ATRIA CHAPTER

Emphasizing high-performance modern frameworks (Next.js, FastAPI) and the philosophy of open-source. Teams will build transparent, community-driven tools and focus on superior backend efficiency.

3. AI & SPATIAL COMPUTING

THE FRONTIER OF ENGINEERING

Pushing the boundaries of reality with integrations involving AI models, computer vision, and context-aware AR solutions to solve real-world hardware and software issues.

WHY SPONSOR?

Partnering with Hack Days is a direct pipeline to the most proactive and capable entry-level engineers. We offer tangible ROI for recruitment and product marketing teams.

01

TALENT ACQUISITION

Get direct access to 250+ top-tier engineering students. Evaluate candidates based on how they perform under pressure, write logic, and collaborate, rather than just reading static resumes.

02

PRODUCT ADOPTION

Put your APIs, SDKs, or cloud platforms directly into the hands of eager developers. Host a specialized prize track and watch students innovate using your core technology.

03

BRAND LOYALTY

Distribute your company swag, hardware, and merch. Hackers love repping the brands that support them, effectively turning them into walking billboards on campus.

04

COMMUNITY TIES

Build meaningful relationships with highly active student builder communities. Send your engineers as mentors and judges to interact directly with the participants.

THE AGENDA

A streamlined, high-efficiency 10-hour schedule designed to maximize keyboard time while providing essential learning and networking breaks.

TIME (IST)	SESSION DETAILS
08:00 AM	Registration & Check-in Venue opens. Welcome hackers, distribute kits, and team formation.
08:45 AM	Opening Ceremony Keynote address, rule explanation, and track announcements.
09:00 AM	Technical Workshop 1 (Available for Gold/Platinum Sponsors)
09:30 AM 05:00 PM	THE 8-HOUR SPRINT COMMENCES Uninterrupted building, mentoring, and execution phase. + EVERY 2 HRS: Kahoot Tech Quizzes & Swag Drops
12:00 PM	Networking Lunch Break Sponsored catered lunch to refuel the hackers.
01:30 PM	Technical Workshop 2 (Available for Platinum Sponsors)
05:00 PM	Hacking Concludes & Judging Keyboards down. Judges evaluate prototypes and code logic.
05:30 PM	Closing Ceremony Awards distribution, sponsor shoutouts, and event closure (5:45 PM).

PARTNER TIERS

Choose a package that aligns with your brand and recruitment goals. Whether you want to host an API prize track, provide food, or offer exclusive merch, we have a slot for you.

BENEFITS	SILVER	GOLD	PLATINUM
Investment	Custom / Swag	₹ 5,000	₹ 15,000
Logo on Website & Print	Small	Medium	Premium Large
Social Media Mentions	Shared Post	1 Dedicated Post	3 Dedicated Posts
Distribute Swags & Merch	✓ Yes	✓ Yes	✓ Yes
Access to Hacker Resumes	-	Post-Event	Pre & Post-Event
Booth / Table Setup	-	Standard Area	Premium Location
Host an API/Tech Prize Track	-	-	✓ Yes
Speaking / Workshop Slot	-	15 Min Opening	30 Min Dedicated
Provide Mentors & Judges	-	-	✓ Yes (Up to 2)

CUSTOM / IN-KIND PARTNERSHIPS

Want to sponsor our meals, coffee runs, or provide exclusive cloud/SaaS credits? We are highly flexible and will craft a custom visibility package for specialized in-kind sponsors.

LET'S CONNECT
